ABOUT

Prior to attending NSS, I was an avid gamer with a lifelong interest in tech. While supporting my college education doing freelance work as a Thumbnail Designer/Video Editor, my passion for content creation and technology led me to pursuing web development as a way to utilize my logical and creative problem-solving skills. Eventually landing me at NSS

PROJECTS

CRUD-EMON
INDIVIDUAL PROJECT
VIEW CODE

CRUD-EMON is an application designed for Pokemon and video game fans that allows you to create, edit, or delete your own Pokemon/character and then battle it out with them in a turn-based Pokemon-style game with animated attacks, sounds and fully realized win conditions.

- Single-page app utilizing React, GSAP, Howler and JSON server API calls
- Full CRUD functionality
- Animated game designed mostly in vanilla JavaScript
- Base CSS for styling

WEBSTONE
INDIVIDUAL PROJECT
VIEW CODE

WebStone is an application designed for card game fans that allows you to create and interact with decks to play a Hearthstone styled fantasy card game directly in your browser.

- Single-page app utilizing React for the client-side.
- Communication with a SQL Server database through a full-stack RESTful Web API utilizing C#, ASP.NET, & ADO.NET and HTTP.
- User authorization through a Firebase setup.
- Full CRUD functionality.
- Styled using Sass/CSS.

SKILLS

- JAVASCRIPT
- REACT
- HTML
- GIT/GITHUB
- CSS
- JSON
- C#
- .NET
- SQL

TECHNICAL EXPERIENCE

Full Stack Web-Development

Nashville Software School | 02/2022 - 08/2022

Intensive full-time software development bootcamp focusing on full stack development fundamentals and problem solving. The final half of the program executed in a simulated company environment with Scrum methodology.

- Real-world application of OOP fundamentals through group and individual projects
- Source code version control and project management with Git/GitHub
- JavaScript fundamentals leveraging DRY, modular, readable code and reusable components
- Built browser-based single page applications using React, HTML, and CSS
- Styled applications with CSS Frameworks, Bootstrap and Materialize, and wrote custom styles as needed
- Learned unit testing to write testing suites for code
- Application design through white boarding dependencies and building ERD's
- Created and modified database design/content using SQL, ADO.NET, and ORM tooling.
- Created RESTful APIs with C#/.NET
- Leveraged Razor for creating and editing MVC applications

PROFESSSIONAL EXPERIENCE

Assistant Team Manager

Taco Bell | 03/2017 - 01/2018

- Resolved customer service issues by finding immediate solutions, increasing customer confidence and decreasing escalations to executive office
- Drove performance of staff by facilitating work and helping to create a positive work environment

Thumbnail Designer & Video Editor

Freelance | 04/2018 - 08/2020

- Obtained approval of concepts by submitting rough drafts to management or to client
- Developed design deliverables that elevated, differentiated and functioned on-brand and on-strategy
- Reviewed project requirements to plan workflows and evaluate client time and budget constraints
- Leveraged industry knowledge and emerging trends to build innovative messaging and bring design concepts to fruition

EDUCATION

Nashville Software School - Nashville, TN

Full Stack Web Development Bootcamp
